## **DETAILED ACTION**

## Response to Amendment

1. The rejection of claim 16 under 35 USC 112 second paragraph is withdrawn in view of the amendment filed 7/18/06.

2. Applicant's arguments, in view of the amendments, filed 7/18/06, with respect to claims 1-17 have been fully considered and are persuasive. The rejection of claims 1-17 has been withdrawn.

## Allowable Subject Matter

- 3. Claims 1-17 are allowed.
- 4. The following is an examiner's statement of reasons for allowance: The independent claims 1 and 14 teach that the database comprises a single basic table which stores common conceptual information about two languages and a plurality of tables, one for each of at least two languages storing language data for conversations in each language. The single basic table is divided into a word identification number field, an image display field, a conception field, a word identification number in said word identification field being common among all of said at least two languages as long as conception of a word is common, the word identification field serving to specify a primary key.

None of the prior art on record teaches these limitation and it would not have been obvious to one of ordinary skill in the art at the time of invention to modify the prior art on record to arrive at this invention.
